SUMMIT FLOWWRAPPER

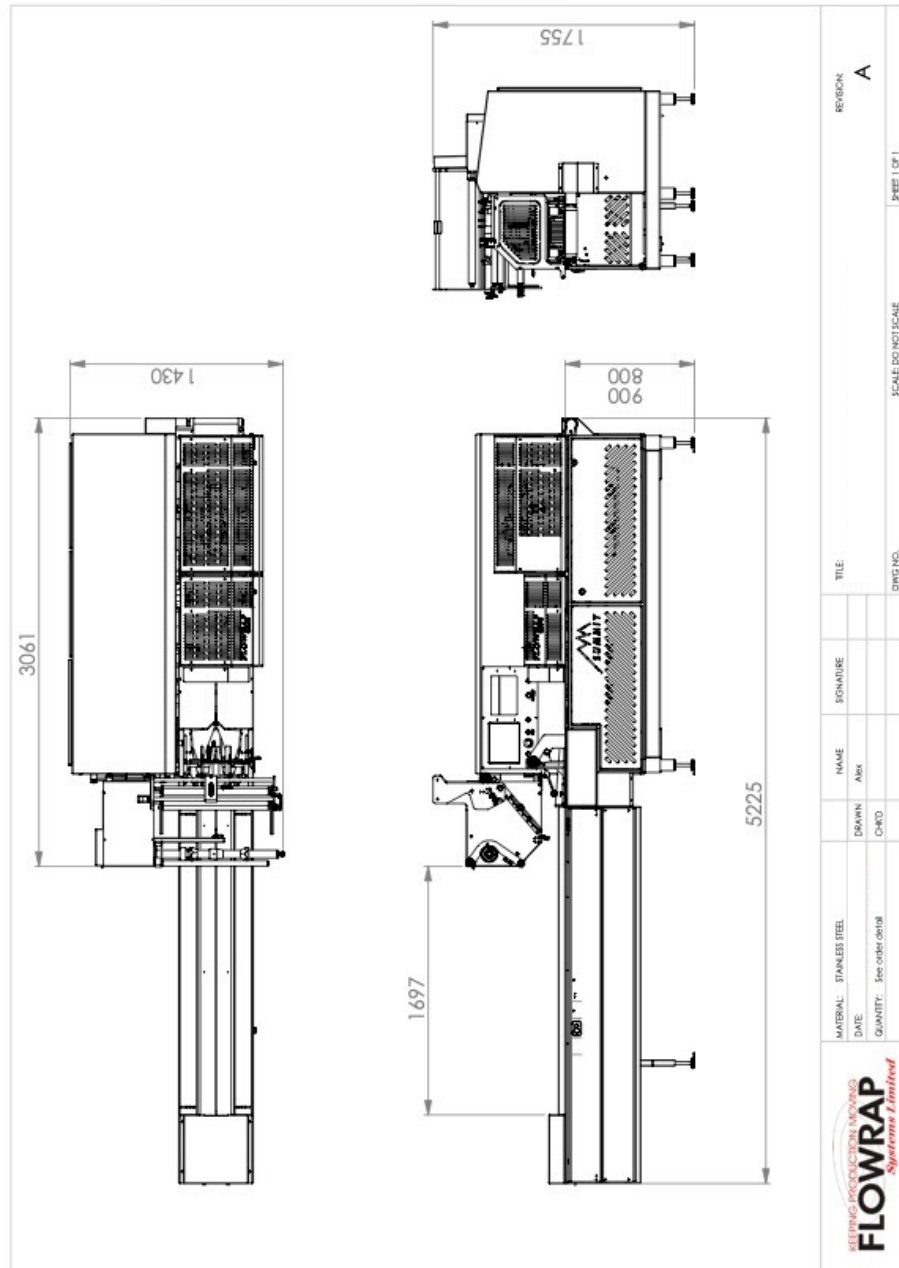

Introducing the Summit flowrapper

The Summit wrapper has been engineered from the ground up to achieve 3 specific design goals:

- High integrity seal system.
The Summit performs exceptionally on all materials:
 - Paper laminates
 - Recyclable materials
 - Traditional materials
- Unprecedented hygiene.
Can be stripped for cleaning without the use of any tools.
No hidden voids or ledges where debris can accumulate
- Maintenance reduction.
Designed specifically to require very little maintenance, the Summit performs – and lasts

Specification	Value
Max. product width	Up to 330 mm (13")
Max. product height	Up to 100 mm (4")
Max. film reel diameter	350 mm
Max. film width	700 mm
Maximum speed Product and film dependent	100 ppm
No Product – No Bag Function	Yes
Misplaced Product Function	Yes
Number of film reel holders	1 as standard Option for twin reel with auto-splicing
Folding box	Adjustable folding box Size range 75 – 210 mm width
Gas Flush Capability	Available as an option
